TO SMOKERS.

It is a well-known fact, admitted by the
EGYPTIAN CIGARETTE MANU-
FACTURERS themselves, that Cigarettes
imported from Egypt are made from
TURKISH TOBACCO, which is subject
to a heavy Import Duty in Egypt. Hong-
kong being a Free Port tobacco can be
imported free of duty.

Two Good Reasons why it is advan-
tageous to Smoke
Cigarettes.

1.—Cheapness of my Cigarettes compared
to imported cigarettes, owing to tobacco
being admitted duty-free into Hongkong,
and that you are buying direct from the
Manufacturer, doing away with middlemen's
profits.

2.—Freshness of my Cigarettes, as they
are made daily for each day's consumption,
which makes it impossible to have an old
stock of Cigarettes, as is very likely with
imported Cigarettes.

The following is a list of my Cigarettes
made from the Best Turkish Tobacco at
from 40% to 50% cheaper than imported
cigarettes of equal quality.

THE PHILIPPINES PROBLEM.

DESPITE reassuring declarations by Mr
Taft and other American gentlemen
who have held responsible offices in the
Philippines it has long been an open
secret that this first American attempt
at colonization on a large scale has been
a failure. The realization of this has
undoubtedly given being to the con-
stantly recurring rumours that the
Government of the United States is
anxious to "sell out" of the islands if it
is possible so to do without loss of face.

In certain quarters it is somewhat
angrily claimed that those who affirm
that the extension of American
sovereignty over the Archipelago has
been attended by disaster are jaundiced
by their prejudices against things
American. No allowance, these apolo-
gists declare, is made for the exceptional
conditions which existed when Spain
agreed to sell her Pacific Ocean posses-
sions to America. It is undoubtedly
true that America was confronted with
a task that called for the exhibition of
exceptional powers of organization,
of tact and of foresight. The natural
question to ask now is has she shown
them? If a foreign critic were to reply
in the negative the answer would proba-
bly be discounted by allegations of prejudice,
perhaps of jealousy. If the negative
reply came from one of the anti-expan-
sionists in America, who have always
opposed the adoption of an Imperial
policy on the ground that overseas
possessions would force the United
States into the turmoil of world politics,
the testimony could not be accepted
without reserve. If, however, the evidence
comes from someone residing in the
Philippines and whose interests are
likely to be best served by a continuance
of the American occupation, it must be
received with all the respect that is due
to it in the circumstances. Here is an
apt quotation from the *Mindanao Herald*
of the most recent date available, which
is published in the Moro province:—
"Americans, even at home, have no
monopoly of civic virtue, but they are
such an enlightened people, their tenure
of office is so limited, and the search-
light of publicity plays with such free-
dom upon all, that they are restrained

from these evil practices at home which

they follow with impunity in the Phil-

ippine Islands. Owing to this fact,

those of us who have resided here prac-

tically from the beginning, and observed

closely the results of our occupation,

refuse to believe any longer that the

American, when he wields irresponsible

power, is of any better fibre, or is any

more considerate of the rights of others

than is the Spaniard, the Russ, or the

unspeakable Turk. When all the

phases of this Philippine embroglio are

considered, we are free to admit that all

suggestions seem chimerical. However,

it is our opinion that there are but two

ways out of our present difficulty, viz:

First—The President to name a gov-

ernor: heads of departments to be elect-

ed by bona fide American residents of

the islands from among themselves

every two or four years. These officials

to constitute the upper house. The low-

er, or Filipino, house, as provided for in

the present law. Second—Turn the

islands over to the native people who

can not possibly do less for themselves

than we have so far done by them."

The last sentence of the extract quoted

is a more sweeping condemnation of

American colonial administration than

could be penned by the most

bitter outsider. It contains a distinct

affirmation that the administration has

failed all along the line. This must be

gall and wormwood to those vaunting

American publicists who declared fre-

quently and freely that the rest of the

world was to be given an object lesson

in colonial government in the Philip-

pines. The object lesson has been given

and the nations have certainly learnt a

useful lesson. They know now how

not to do it. Not for one moment

should we be suspected of rejoicing over

America's misfortune in this connection.

It is desirable for us to have good neigh-

bours and we could hardly see with

equanimity the Philippine Islands pass

under another flag—unless it were the

British. Consequently we can only

hope that some way out of the present

difficulty will be found which will still

enable the Americans to keep their flag

flying over the Archipelago.

Singapore is moving ahead. The

installation of the electric light in the

southern port was opened on March 6,

and henceforth the brilliant electric arc

will replace the gas lamp. Though the

system of mains, which are being laid

down in all the principal streets, has

not been completed as yet, it will not be

long before the electric light will be

available to all the residents. The

authorities at Singapore took advantage

of the installation of the electric tram-

way to secure power from the Tramway

Company without the expense of erecting

a power house of their own, and their

promptness has its own reward.

There are few places in the world

where the community takes a deeper

interest in rifle-shooting than Hong-

kong. Even when a savage sun-amine

fiercely down, darting his shafts upon

officer, non-com, and private alike, with

that impartiality which has been observ-

ed to characterize the descending gifts

of nature, our gallant volunteers and

reservists fearlessly do their duty. We

have been moved almost to tears to see

devoted and patriotic young men toiling

after the perspiring coolies who bore

their rifles, and making their way

towards the Kowloon or Ti Hang ranges.

The magnificent self-sacrifice of these

zealous individuals who heroically and

unselfishly offered the sweat of their

—or something akin to it. After the

sandwiches had gone, one of the shoot-

ists, thinking that the cakes were part

of the refreshments provided, took one.

The caretaker smiled. He thought it

was rather a good joke. However

amusement gave way to consternation

when, in a twinkling of an eye a bare

plate gazed up blankly at him. The

next time teams patronise that range

they must not be surprised if they find

a notice posted up: "gentlemen are re-

quested to bring their own cakes."
